

Removable Fibre Channel Solid State Storage Media Cartridge

Applications

- High-speed airborne recording

Features

- Media cartridge for use in TTC's MSR-2XXX-PS(O)(B) airborne high-speed Fibre Channel recorder products
- High-speed data recording
 - Up to 39 Megabytes/sec data recording rate (each cartridge)
 - 1 Gigabit/sec electrical Fibre Channel interface
- Available in various unformatted capacities
 - 92GB, 136GB, 276GB
- Ruggedized for airborne applications

Description

MSC-0XXX-FS media cartridges use ruggedized COTS industrial temperature Fibre Channel solid state drives to provide a removable cartridge for use with the TTC MSR-2XXX-PS(O)(B) airborne high-speed Fibre Channel recorders. The "XXX" in the model number notates the drive manufacturer's number of GBytes of unformatted memory space.
