## Remote CAIS Interface Card

Features

- Provides a CAIS Bus interface as a Remote for the HSAVDAU family of products
- Has Remote Unit ID strapping provisions (1 of 60, i.e. 6 lines)
- 10, 12, 14 or 16 Bits Per Word
- IRIG-B Time Code Reader/Generator

Description

The RCI-305 card plugs onto an OVH-300 card operating as a Time Code Reader/Generator. The card also provides a CAIS Bus interface to the AIM and HS-AVDAU family of products. The card also contains connections for a 6 bit CAIS Remote ID input, IRIG DC Input/Output, IRIG AC input and an IRIG Reset Input.

Applications

- CAIS Applications
- Distributed Systems
- Time-tagging data
