

3.3 Cubic Inch Telemetry Transmitter - 2 or 5 Watts

Features

- L & S Bands
- 2 or 5 Watt Power Output
- Frequency Selectable
- 2" x 3" x 0.66" Package
- Environmentally Rugged
- On/Off Control
- Pre-Emphasis

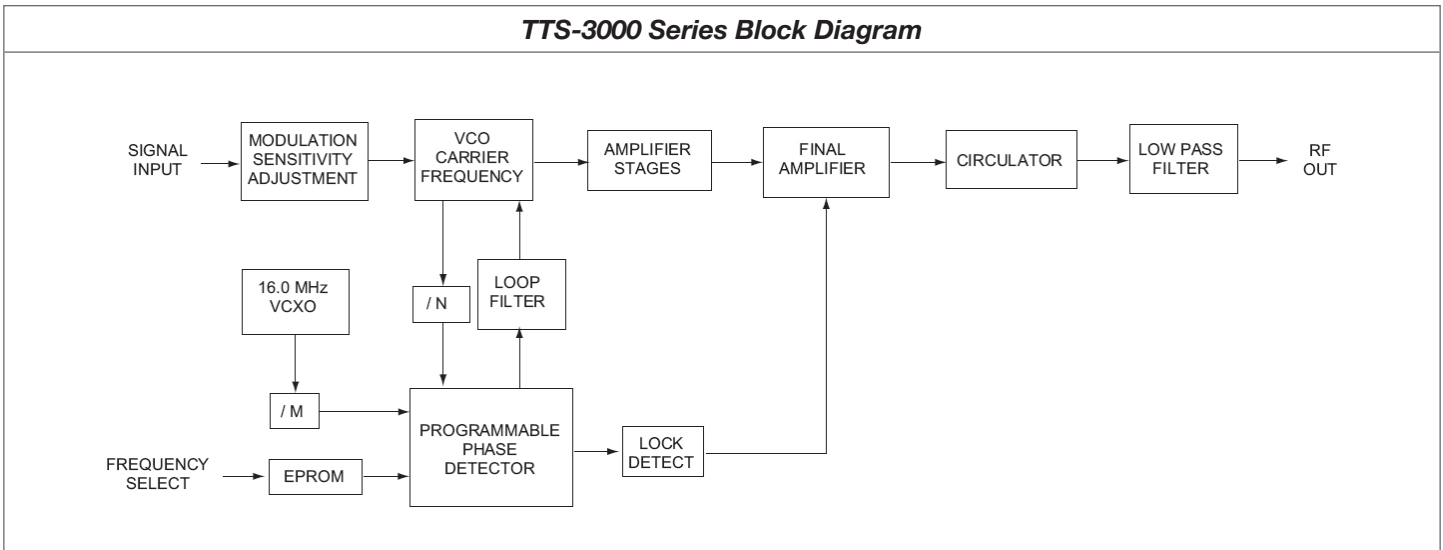

Description

TTS-3000 series transmitters are designed for use in telemetry, digital, wideband, and video applications. Versions are available to handle L and S bands at powers ranging from 2 watts to 5 watts. Compact package is just 3.3 cubic inches in size (2.0" x 2.5" x 0.66"). The transmitters are frequency selectable. Environmentally rugged construction for high reliability in the field.

Applications

- Video Transmission
- Aircraft Flight Testing
- Missile Performance Testing
- Space Craft Instrumentation
- Remote Ground Communication
